

THE TRANSLATIONAL CANCER NETWORK

2nd Annual Meeting

September 24th, 2024 @ 14:30-19:00 Auditorium G206-145, entrance G Aarhus University Hospital

14:30 – 15:00	Registration, poster session and coffee
15:00 – 15:20	Opening by Anne-Mette Hvas, Dean at the Faculty of Health, Aarhus University
	Welcome remarks by the network chairs Martin Roelsgaard Jakobsen, Professor, Department of Biomedicine & Signe Borgquist, Professor Department of Clinical Medicine - Oncology, Aarhus University
	Junior Faculty
15:20 - 15:50	Keynote: Targeting the hypoxia-induced DDR to improve radiotherapy response Ester Hammond, Professor, Oxford University, UK
15:50 -16:50	Presentation of translational cancer research at Health, Aarhus University (Chairs: TBA)
	Utilize in vivo cancer models with CRISPR to unravel cancer progression, Martin K. Thomas, Associate Professor, Department of Biomedicine, Aarhus University
	The impact of peripheral blood T cell receptor landscape on bladder cancer outcome, Nicolai Birkbak, Associate Professor, Department of Clinical Medicine - Molecular Medicine, Aarhus University
	Stem Cell Therapy in the Surgical Treatment of Soft Tissue Sarcomas Thomas Baad-Hansen, Clinical Professor, Department of Clinical Medicine - Orthopaedic surgery, Aarhus University
	Title TBA Cecilie Ejerskov, MD PhD, Department of Clinical Medicine - Paediatrics, Aarhus University
16:50 – 17:20	Coffee break and poster session
17:20 - 17:50	Keynote: Translational studies in malignant brain tumors identifies target candidates for personalized immunotherapy, Mattias Belting, Lund University, Sweden

THE TRANSLATIONAL CANCER

2nd Annual Meeting

September 24th, 2024 @ 14:30-19:00 Auditorium G206-145, entrance G Aarhus University Hospital

17:50 -18:30 Presentation of translational cancer research at Health, Aarhus University

(Chairs: TBA)

Empowering Oncolytic Viruses with Electrophilic Boosters, David Olagnier, Associate Professor, Department of Biomedicine, Aarhus University

Defining combinatorial strategies with de novo pyrimidine biosynthesis inhibitors in pancreatic cancer, Naiara Santana-Codina, Assistant Professor, Department of Biomedicine, Aarhus University

Friend or foe: The connection between inflammation and cancer Torben Steiniche, Clinical Professor, Department of Clinical Medicine - Pathology, Aarhus University

18:30 Reception with canapés and drinks + poster awards

Registration

Please register by September 10 at events.au.dk/secondannualmeeting-thetranslationalcancernetwork
