

## PROGRAMME

---

- 14:30-15:00                      Registration and coffee
- 15:00-15:10                      **Welcome** Anne-Mette Hvas, Dean, Faculty of Health, Aarhus University
- Opening remarks** Jens Cosedis Nielsen, Chair of the Cardiovascular Network and Professor, Department of Clinical Medicine, Aarhus University
- SESSIONS I - Cardiovascular treatment in the elderly and frail patient**  
(Chairs: Thomas Maribo & Lena A. M. Nielsen)
- 15:10-15:40                      **What do we do with fragility assessment? Is the assessment a help or a hindrance?** Catherine Hauerslev Foss, Dept. of Clinical Medicine - Department of Geriatrics, Aarhus University Hospital
- 15:40-16:10                      **TAVI – why do we treat so many patients?** Christian Juhl Terkelsen, Dept. of Clinical Medicine - Cardiological Medicine, Aarhus University
- 16:10-16:20                      **Flash talk 1:**  
**Initiation of cardioprotective glucose-lowering drugs according to sex and educational level: a Danish nationwide cohort study** (Presenter: Elena Calderon)
- 16:20-16:50                      **Break – networking and poster viewing**
- SESSION II – Cardiac and skeletal muscle metabolism in cardiovascular disease**  
(Chairs: Henrik Wiggers & Christina S.-Z. Yde)
- 16:50 – 17:20                      **Keynote: Dissecting the role of nuclear envelope proteins in cardiomyopathy:** Matthew Stroud, King’s College London, UK
- 17:20 – 17:50                      **PET imaging of cardiac metabolism – new tracers, new insights:** Lars Gormsen, Department of Clinical Medicine - Nuclear Medicine and PET, Aarhus University
- 17:50 – 18:10                      **Flash talks 2-3:**  
**Sodium-glucose cotransporter-2-inhibition prevents development of left ventricular hypertrophy** (Presenter: Anna Vingborg)  
**Colchicine mitigates arterial stiffness in high-risk patients with type 2 diabetes** (Presenter: Jonathan M Baier)
- 18:10 – 19.10                      Reception and poster sessions
-

## Oral Poster sessions

NR.	PRESENTER	SESSION	TIME SLOT
1	Henrik Bjerre Leadless or transvenous pacemakers for AV-block in elderly patients – the DANVERS trial protocol	I	16.25 – 16.45
2	Anders Meldgaard Kristensen Fibrosis is a consequence and not a cause of tubule atrophy after Acute Kidney Injury	I	16.25 – 16.45
3	Laura A. Herranz Modulation of smooth muscle cell phenotype in atherosclerosis through SMAD7	I	16.25 – 16.45
4	Malene K. Hansen Composition of non-high-density-lipoprotein cholesterol and residual cardiovascular risk	I	16.25 – 16.45
5	Nadia Iraqi Interscan reproducibility of computed tomography derived coronary plaque volume measurements	I	18.25 – 18.55
6	Jacob Petersen Non-attendance and drop-out in Cardiac Rehabilitation following open-heart surgery	I	18.25 – 18.55
7	Tanita D. Jeppesen A novel expandable aortic annuloplasty ring for aortic valve repair	I	18.25 – 18.55
8	Thomas H. Jensen Polyamine treatment in elderly patients with coronary artery disease (Poly CAD)	I	18.25 – 18.55
9	Rikke Daugaard eHealth Literacy among Patients Referred to Open-heart Surgery	I	18.25 – 18.55
10	Bente S. Toft Why patients don't enroll and participate in cardiac rehabilitation after cardiac surgery.	II	16.25 – 16.45
11	Nanna Nørgaard Association Between Cardiac Arrhythmia and Air Pollution	II	16.25 – 16.45
12	Bianca E. Suur Patient in a dish: mimicking patient phenotypes in 3D adipocyte spheroids	II	16.25 – 16.45
13	Robert Johnsen Unravelling the molecular role and signalling pathways of Cardiac Ankyrin Repeat Protein in dilated cardiomyopathy	II	16.25 – 16.45
14	Anja Billing Discovery of off-target effects of SGLT2 inhibitors	II	18.25 – 18.55

## 5th annual meeting

NR.	PRESENTER	SESSION	TIME SLOT
15	Elina Kovalenko Role of retained aromatic amino acid metabolites in acute kidney injury	II	18.25 - 18.55
16	Saeideh Tavajoh Inflammatory resolution in cardiometabolic health and disease	II	18.25 - 18.55
17	Esben B. Gynning The load dependence of novel echocardiographic indices	II	18.25 - 18.55
